REASONS FOR ALLOWANCE

The following is an Examiner's Statement of Reasons for Allowance:

The applicant's amendment filed 12/21/05 overcame the technical deficiencies and the prior art rejection. Claims 1-7, 9-30 and 32-34 are allowed because the prior art of record does not suggest "a matching capacitor, the sense and canceling circuitry, and transconductor circuitry connected to the first node and a transconductor capacitor connected to the transconductor circuitry and the oscillator to generate a second control signal for the oscillator" as combined in claim 1, and "a digital path connected between the first node and the transconductor capacitor, and adapted to (1) digitally accumulate differences between a reference voltage and a voltage at the first node and (2) generate a first gm output signal based on the accumulated differences, wherein the first gm output signal is applied to the transconductor capacitor" as combined in claims 20 and 29.

CONCLUSION

Any comments considered necessarily by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
